

## DATA SHEET

Dimensions (L x W x H), mm	290×320×120
Weight, kg	3
Supply voltage, V	100 – 230
Supply net frequency, Hz	50/60
Supply mains type	Single-phase
Demanded power (max.), W	40
Stator winding coil diagnostics	
Voltage of the tested stator winding coils and diode bridges, V	12/24
Stator winding coil types	Star, Delta
Measurement tolerance (max.), %	3
Short circuit to body test, kOhm	12
Diode bridge diagnostics	
Voltage of the tested diode bridges, V	12/24
Testing current	Impulse
Testing voltage, V	12.6
Testing current, A	30
